The Gateway to the **DOUGLAS**

*In the Land of Virgin
Rich in Fish*

Last Great West **LODGE**

*Lakes and Woods
and Game*

WOULD you hunt the wilds where big game abounds and no white man has lived — fish virgin waters where the big fellows bite — live for a while the free open air life in the backwoods of the last great West? — then Douglas Lodge is the place of your dreams.

Here one sees the old world unchanged, and the romance of the past adds even a greater appeal to those vast stretches of beautiful lakes and woods which make Douglas Lodge so ideal for a sportsman's vacation.

VIEW OF STUART LAKE
FROM THE LODGE

Only three miles away the original log buildings of historic old Fort St. James, established by Simon Fraser in 1806, still stand intact, nearby is an Indian village. Every fall, hardy trappers and Indians still leave the Fort, to return in the spring with their wealth of furs.

In such a setting you can enjoy one of the most delightful vacations you have ever spent. Come and join us at Douglas Lodge this season.

Riding · Water Sports

Douglas Lodge, Stuart Lake, B. C.

LOCATION: Situated 44 miles from Vanderhoof (Canadian National Railways) on the north shore of Stuart Lake, Douglas Lodge is connected by a fine automobile road and accessible by rail and car. Automobiles convey passengers from the station at very reasonable rates.

THE LODGE: A fine log structure with massive stone fireplace and that rustic design true sportsmen love, is our Community Hall. In front are the clear waters of Stuart Lake over 50 miles long, while a chain of lakes and rivers stretch for over 200 miles north through a wide open country, rich in big game and of primitive beauty.

ACCOMMODATION: Guests are housed in four-roomed bungalows built of logs with the cunning craft of expert woodsmen, and carpeted with fur rugs. They combine that rugged artistry of the backwoods with the desirable comforts of a Metropolitan Hotel—electric light, hot and cold water, showers, plunge baths, and a stone fireplace in every lounge.

BIG GAME HUNTING: For the Hunter no richer fields exist than these—Moose, Deer, Black Bear, a few Grizzlies, the smaller fur-bearing animals, Grouse, Ptarmigan, Ducks, Geese and other varieties of game.

EQUIPMENT: The Lodge provides every facility for those who wish to hunt or fish, including full equipment, guides, cooks, tents and provisions.

FISHING: The waters of the lakes and rivers abound in fish—Rainbow Trout up to 25 pounds, or Lake Trout up to 40 pounds, wait for fly or spoon, and in Nation Lake—75 miles by a good pack trail—the Arctic Trout can be caught. We have also rivers and lakes unexplored except for the occasional trapper or Indian.

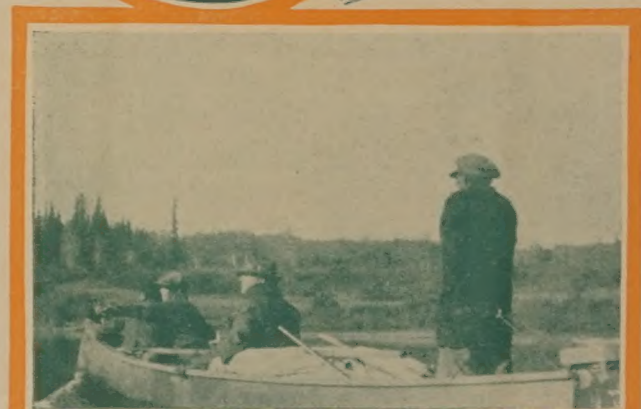

WALKS AND TRAILS: Many lovely trails run from the Lodge through the most enchanting scenery. One about five miles long leads to the top of Mount Pope (2,200 feet above the lake), from which can be seen no fewer than forty-two lakes, including Babine Lake, 110 miles long, with the majestic Rockies just visible in the east, and the Coast Range away to the west.

RIDING AND SWIMMING: Sure-footed ponies accustomed to mountain trails, are ready for those who ride, while perfect bathing conditions in the lake, place water sports, boating and canoeing, etc., within reach of all.

RESERVATIONS AND ENQUIRIES should be made to Hotel Grosvenor, Vancouver, B. C., from October 1st to May 30th. Douglas Lodge, Fort St. James, B. C., from June 1st to September 30th.

FIND FISH PARADISE IN CANADA

Rod and Gun Editor and His
Party Enjoy Wonderful
Sport in the Wilds of
British Columbia.

Catch Fifteen-Pound Lake
and Rainbow Trout Far
From Civilization.

BY V. B. GRAY,

Rod and Gun Editor.

TUCKED away in the spruce
forests of British Columbia,
a half day's ride by train
west of Prince George and forty-
five miles from Vanderhoof, the
nearest town, is an angler's para-
dise that has not yet been exploited.
It is a region dotted with spark-
ling lakes fed by mountain streams
all teeming with rainbow and lake
trout. Stuart lake, over fifty miles
in length, is in the center of this
great fishing district. From the
summit of Mount Pope, which tow-
ers 2200 feet above Stuart's north
shore, forty-two lakes can be seen,
including Babine lake, 110 miles
long. Many have nothing but little
used Indian or Hudson Bay Co.
trails leading to them. To reach
others the angler would have to
cut his way through the bush.

I make the prediction that within
a very few years this district will
become famous as one of the great-
est fishing regions in all western
Canada.

Stuart lake was one of my ob-
jectives in the 7,500-mile trip across
Canada, from which I re-
